## Chemical Safety Management

### **100% compliant with laws and regulations, as well as customer requirements**

In 2024, all products produced by Avary, which account for 100% of total revenue, fully complied with EU RoHS standards, IEC 62474, EU REACH, POPs, California Proposition 65, and other applicable laws, regulations, and customer requirements. Additionally, investigations and declarations were made regarding substances in products and materials that might be controlled by these regulations, helping to promote improvements in hazardous substance legislation, protect consumer rights, and fulfill responsibilities for human health and environmental protection.

Since 2008, the campuses of Avary have passed the hazardous substance management system

avoiding the use of hazardous substances so that materials and products completely meet regulatory and c

green product organization and established procedural, documentation, and standardized requirements for hazardous substance control in accordance with QC 080000 standards and customer requirements.
